Highly ergonomic features

A new handle designed for optimum comfort and grip, owing to:

ANAH

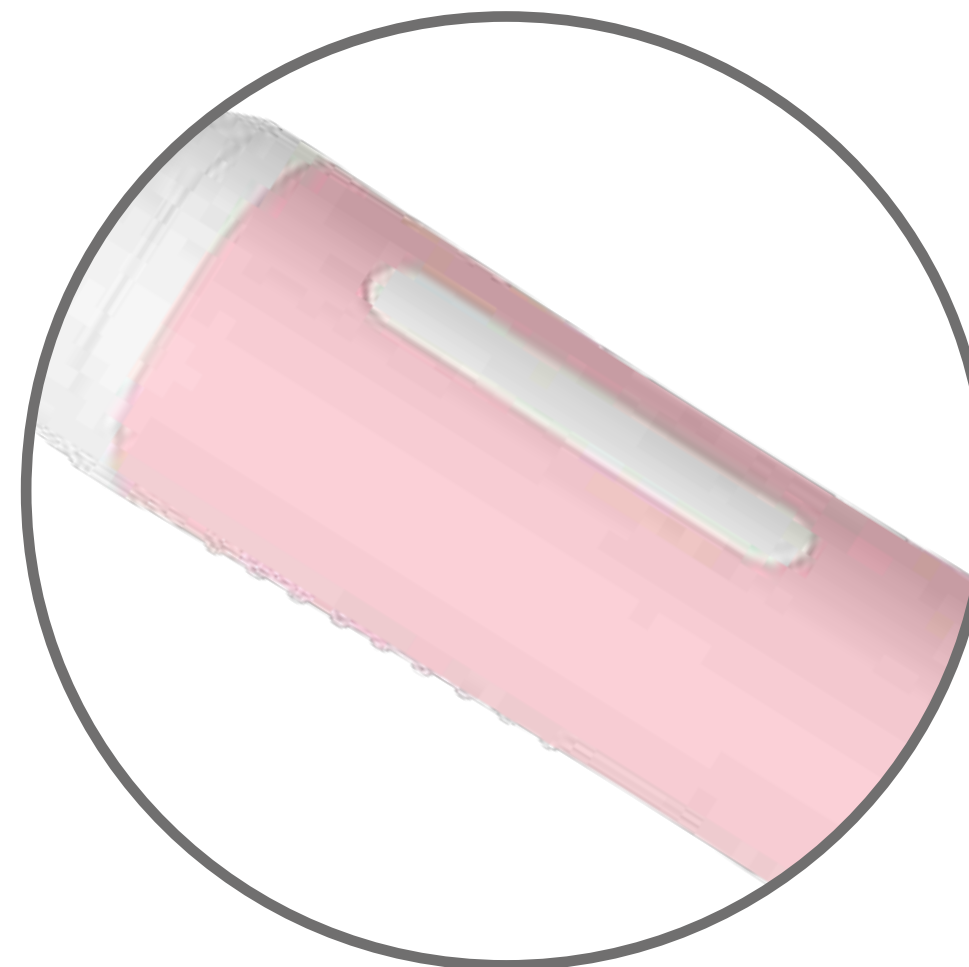

Its **SOFT TOUCH** finish, with non-slip properties enhanced by

Ergonomic shape

a thermoplastic rubber insert

soft nubs

Advantage

Only one handle size, regardless of product size, to adapt to hands of all sizes.

A contemporary design

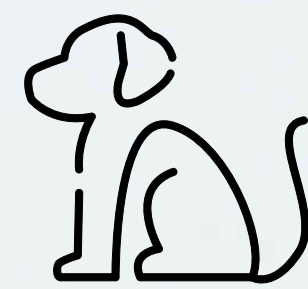

The range has been designed with a **contemporary feel** with **soft, on-trend shades.**

ANAHA

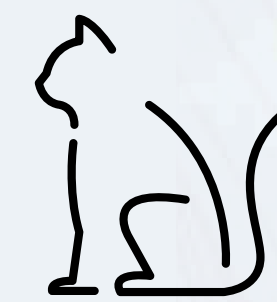

FOR DOG

mint green
and anthracite grey

FOR PUPPY

mint green
and white

FOR CAT

dusky pink
and white

Its **harmonious, dynamic lines** will appeal to users

ANAH

Guaranteed quality

Quality is a major asset of the **ANAH** brush range. The products are manufactured from **ABS plastic**, which is particularly **robust** and long-lasting.

Robust and long-lasting
ABS plastic

A **thermoplastic rubber** ring between the brush head and handle guarantees perfect hold.

All metal parts are made from **stainless steel**: blades, teeth and nubs.

* ABS = Acrylonitrile Butadiène Styrene

ANAH

Informative packaging

The new graphics charter for the ANAH range aims for harmonious colours and lines, for optimum placement on the shelf space and appropriate visibility.

The packaging aims to inform users and help them decide on the right product.

Promotional text on the back of the packaging which describes the product's function, intended use and coat type.

ANAH

An environmentally responsible approach

The ANAH range has been designed in keeping with an environmentally responsible approach:

- via the **quality of the materials** used, for long-lasting products.
- via the more environmentally responsible **design of packaging and outer packaging:**
 - Packaging cutting lines have been **optimised** to **limit** the size of the packaging and therefore the **quantity of materials used**. Plastic shells and metal rivets have also been eliminated, to **make our packaging easier to recycle**.
 - The products are delivered to the stores in packs comprising 3 items, in **100% recycled plastic bags**.

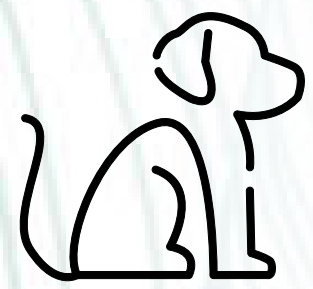

For more information on our CSR commitment at Zolux, please visit en.zolux.com/csr-horizon

ANAHA

A complete range, split into segments

A range of 67 references, split into 3 main segments to meet the grooming needs of each pet category:

FOR PUPPY

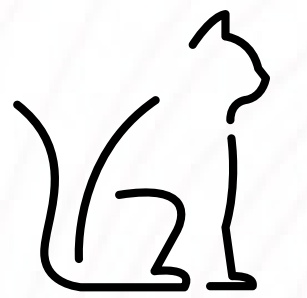

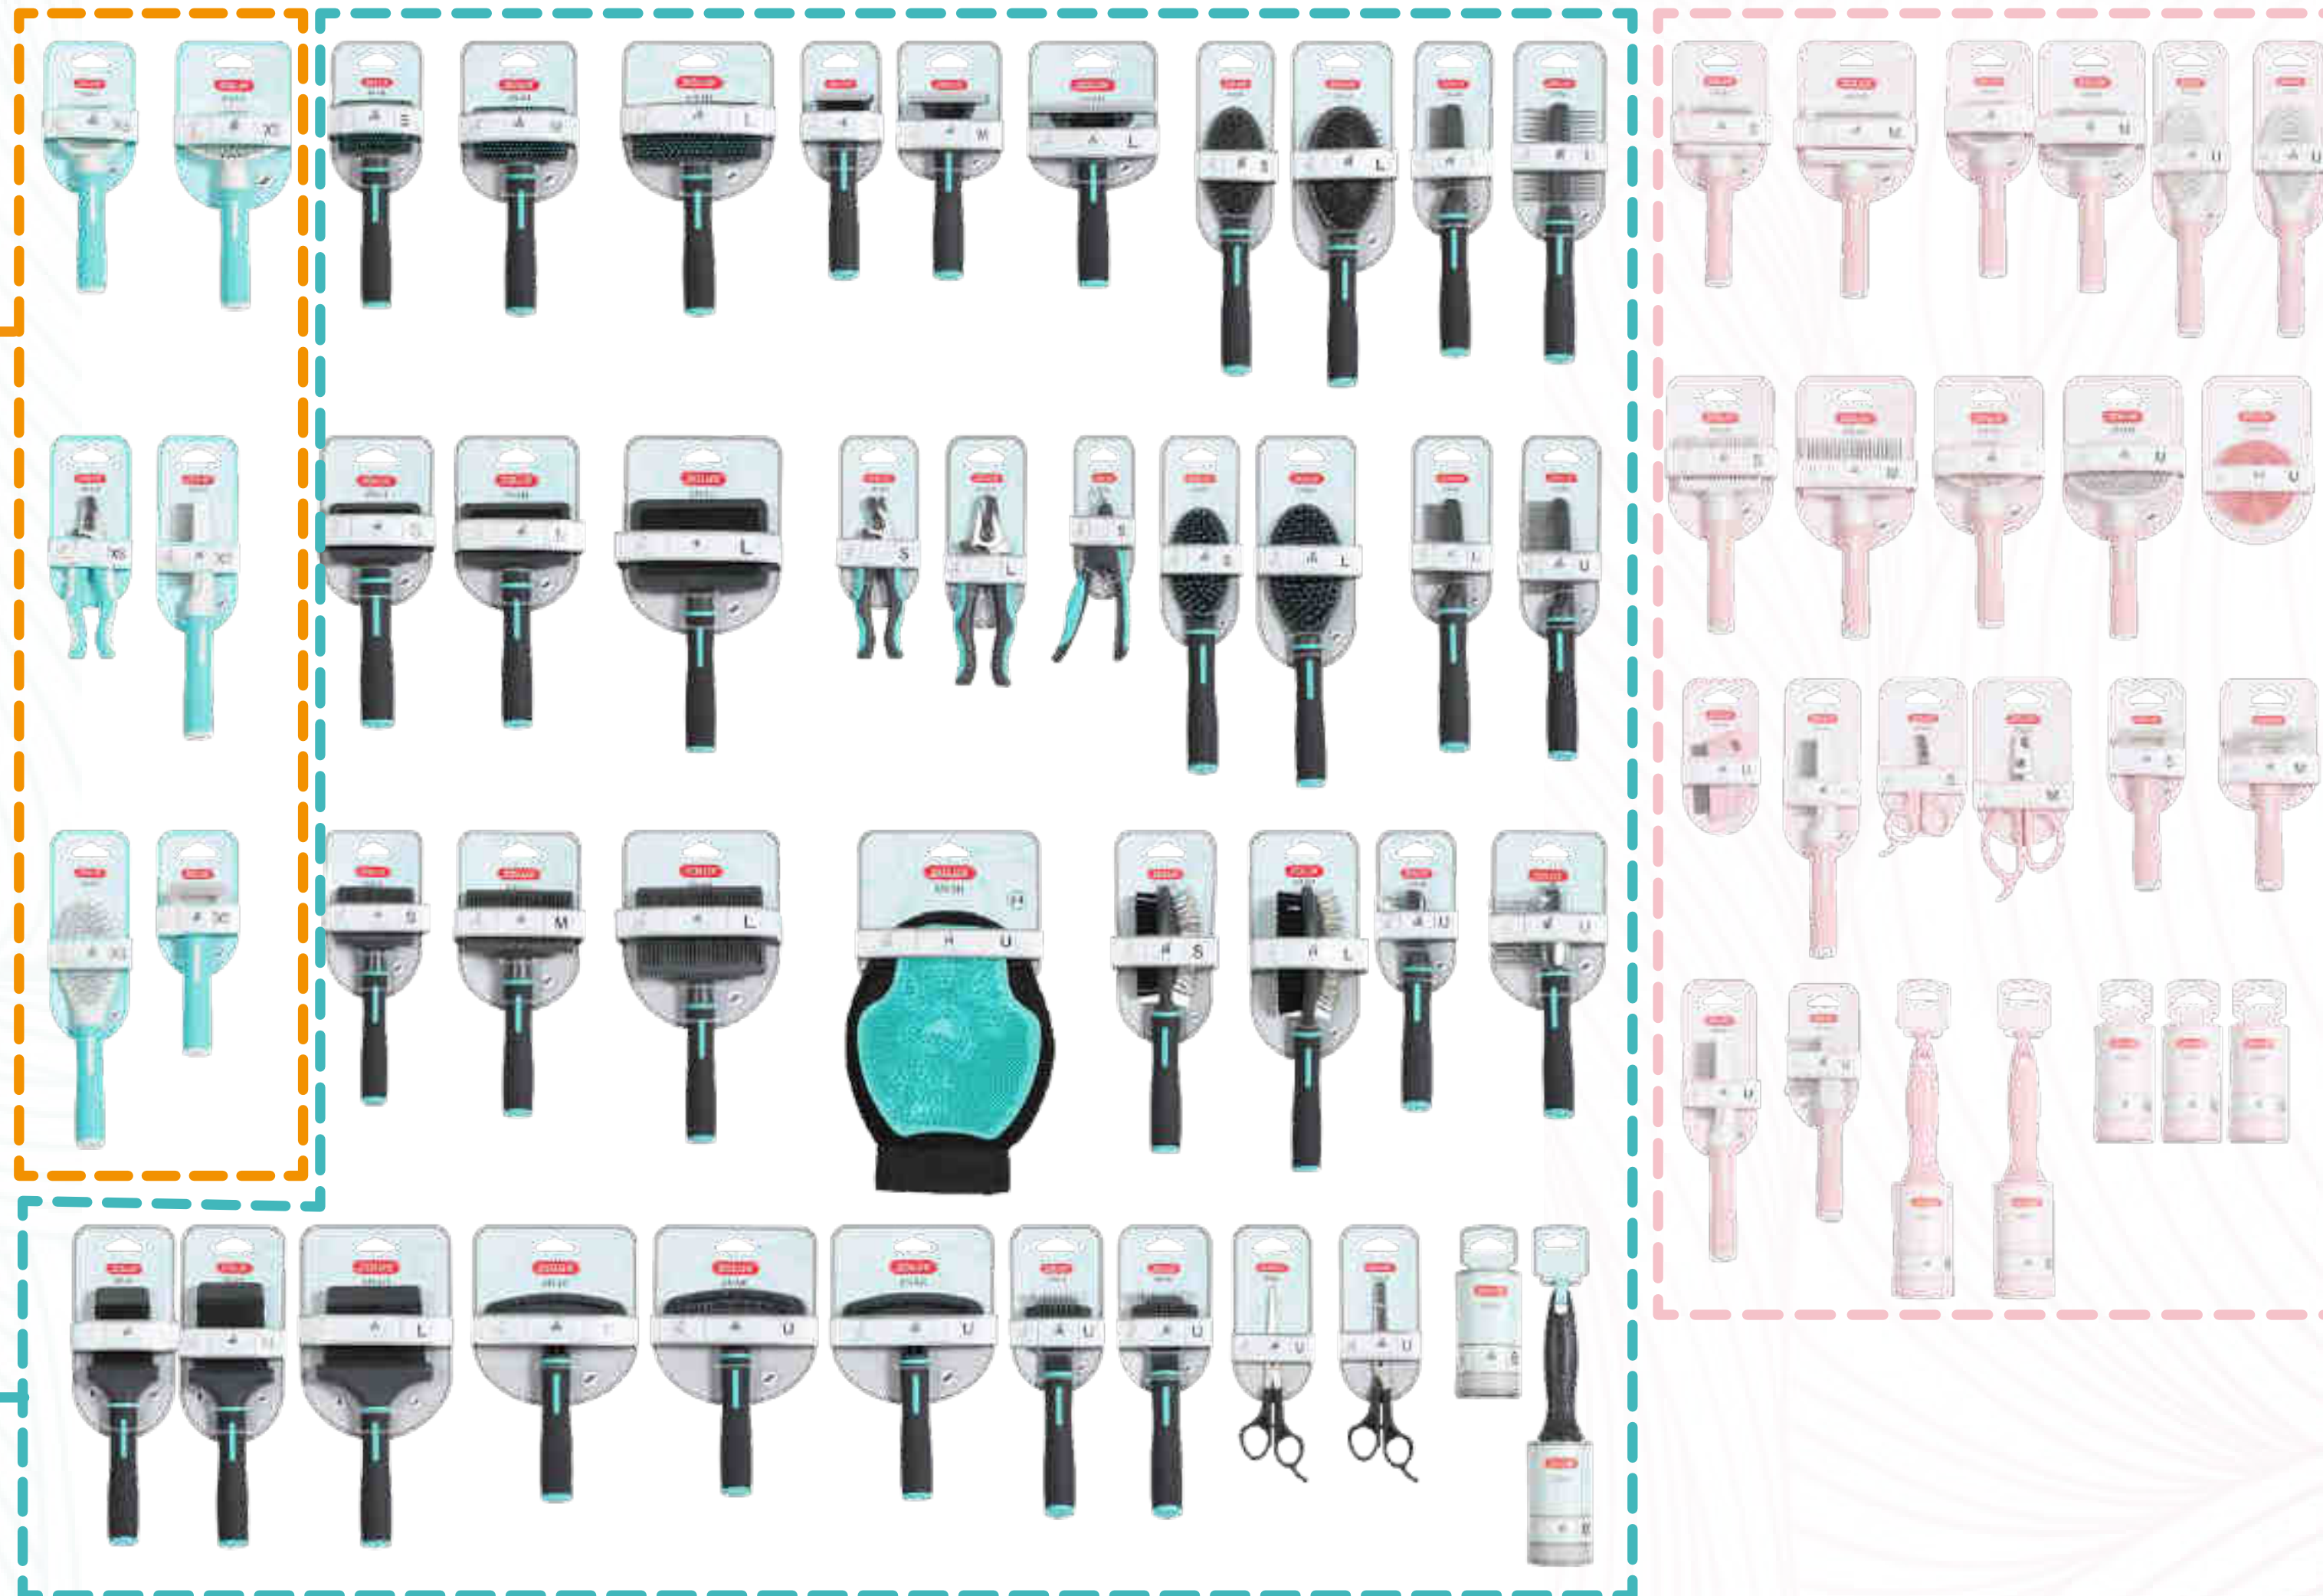

NEW

Puppy segment: a limited range comprising 6 references to attract new users from their pets' earliest days.

FOR DOG

Dog segment: 40 references

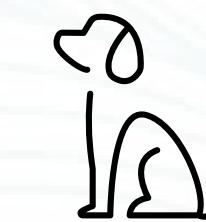

FOR CAT

Cat segment: a vast range comprising 21 references to match market growth
